EBERT SIGNS PEACE TREATY!

WILSON PRESENTS TREATY TO SENATE

SAYS THAT LEAGUE OF NATIONS COVENANT HAS BECOME A PRACTICAL NECESSITY ALREADY.

By the Associated Press

WASHINGTON, July 10.—President Wilson, in presenting the peace treaty with Germany to the Senate today, declared that "The League of Nations had become a practical necessity, to which framers of the treaty felt obliged to turn." The most skeptical of conferees at Paris, Wilson said, had turned more and more to the league as discussion progressed, in seeking a solution of problems that arose in framing the treaty. Wilson said the agreement as to league covenant had given the conferees a feeling that their work was to be permanent and that the most practical among them "were at last most ready to refer to league superintendence of all interests which did not admit of immediate settlement of all administrative problems which were to require continual oversight." When the president entered the Senate, the galleries cheered for one minute, disregarding chamber rules.

ASSAULT AND BATTERY CASE TRIED YESTERDAY

Joe Watson, colored, who has given more or less trouble to the enforcement officers for a long time, was tried again in the mayor's court yesterday afternoon.

The case against Joe was for making an assault on his divorced wife, Ophelia Watson. He was represented by Attorney E. S. Ratliff and the case was hotly contested at every turn by Mr. Ratliff and by the city attorney, J. W. Dean.

The trouble came up last Monday night in the negro quarters. Ophelia Watson was living in a house near the Frisco railroad, with her baby. Joe came along and told her to go with him, supposedly to his mother's. Shortly after they left, Ophelia came running back for her house and screaming. Joe followed the baby and took it to his mother's. Several witnesses testified to this.

Ophelia stated on the stand that Joe struck her in the side, on the arm and on the top of her head with a heavy pistol, the wound on the head necessitating the calling of a doctor and having the wound dressed. She ran away from Joe and stayed that night at the home of a neighbor. Joe claimed he did not strike Ophelia, but that she hit and hurt her head. A number of witnesses testified in the case.

Attorney Ratliff made a strong appeal for his client and undertook to impeach the testimony of many of the negroes on the stand. He stated that Ophelia Watson was the cause of all the trouble and that she was a "choce" drinker, dope fiend, bootlegger and a much worse woman than Joe was a man. The room was crowded with spectators, and a great many negroes were present, which caused the mayor to keep his fan in operation because of the summer time atmosphere.

The mayor decided Watson was guilty of the offense against him and fined him \$20 and costs. Watson has another charge of assault against him which will be tried Saturday, and a third charge of carrying a dangerous weapon, to be tried at the same time.

Meeting Last Evening Puts Finishing Touches On Plans For Big Revival

Final touches were put on the preparations for the big revival at the meeting at the tabernacle last night. A meeting of the chairman of the various committees was called at eight o'clock and most of the committee heads were present. Every report indicated that definite plans had been formulated as far as could be until the meeting is actually in progress. Such committees as the publicity and ladies work reported work already under way and every part running smoothly while the work of the tabernacle was on hand to speak for itself.

With last night's meeting ended one phase of the great revival. The preliminaries were at an end and the community was brought face to face with the real thing. A spirit of genuine and confident enthusiasm pervades the organization that has brought about the event for Ada. Only the appearance of Mr. Ham and Mr. Ramsay is necessary to make the plan complete and tonight at the big tabernacle it is expected that they will take over the meeting and begin what promises to be the greatest religious effort in the history of the city.

The rally-cries of the revival is "Get Right With God." You have faced the call wherever you have turned on the street. It has called to you from the show window, from the windshield of the moving car, from the telephone post, and from the newspaper page. This slogan has a significance that can best be illustrated by the story of its origin in the words of the originator—a business man who made it a business proposition in the spiritual way.

"In the year 1871, I sat one night in my home, from seven o'clock until midnight, thinking, 'For God so loved the world that He gave His only begotten son, that whosoever believeth on Him shall not perish but have everlasting life.'"

"At midnight a complete surrender was made; and I was saved. The next morning I started to my office, and as I picked up my hat I noticed my business card inside. J. A. Cole, Real Estate Dealer, corner Clark and Washington Streets. I took it out and wrote on the bottom of it, 'Right With God.' Surely I was right with God, for I had surrendered all to Him."

"Later, I was called to speak in meetings, and one day as I was alone on my knees praying for a message, it seemed clear to me that I was to tell my audience what my hat said I had done, and tell others to 'Get Right With God.'"

"For thirty years this has been my battle cry. Thousands have been convicted and converted by reading these words or hearing them read by others."

Major Cole's story is the story of the simple message which reaches the hearts of men and in the simple message is the whole story of the Ham-Ramsay meeting.

NEW CABLE CONTEMPLATED FROM HERE TO SWEDEN

By the Associated Press

STOCKHOLM, July 10.—Strong financial interests in the United States have under consideration with authorities of the Swedish government a plan to lay a cable from America to Sweden, making the landing at Gothenburg, says the Dagens Nyheter.

British monopoly and control of cable connection between Sweden and the United States and the exercise of British censorship in the war has caused some adverse criticism here. The American minister, Ira Nelson Morris, now in the United States, is said to be energetically supporting the plan understood here that one of the purposes of his visit to America was in connection with the proposed new cable service.

Advocates of the proposal point to the prospect that a considerable part of American trade with Russia, Finland, Poland and the Baltic Provinces will pass through Scandinavian countries, and they see in this increased need of a direct cable service with the United States.

A Big Film Firm Gets Ada News; Is Stuck On It

Foster McSwain, manager of the American and Liberty theaters, is in receipt of two letters from the Universal Film Exchange, of New York, in which they toss Ada and this paper several elegant floral offerings. In the letter of June 25, among other things, they say:

"We wish to thank you very kindly for going to the trouble of sending us the Ada Evening News, and assure you that we appreciate the interest you take in the Universal Productions."

"You have arranged one of the best displays of Dorothy Phillips in 'Destiny' that the writer has ever seen. No doubt if one were not familiar with this country and did not know the population of Ada, and was a stranger in these parts, at the first glance he would be of the opinion that this was for some theater in either Chicago or New York City, and we are grateful to know that our productions are being used by an exhibitor who has the co-operation of a live newspaper, as we appreciate what the assistance of a press means in exploiting big production such as are released by the Universal Film Company."

Writing Mr. McSwain again on July 7th, regarding the same matters which brought the first letter, they have this to say about the News:

"We acknowledge receipt of your letter of recent date—also newspaper ad on 'DESTINY.'"

"Allow us to compliment your newspaper as well as yourself on the arrangement of this ad. We regret very much that there are not more live newspaper men in the state who are capable of demonstrating their ability in exploiting big features as this is a great help to the exhibitor in making his theater a success. You are indeed lucky to be located in the city of Ada—where you have the assistance of a live newspaper man."

SOLDIERS JUST NOW GET XMAS PACKAGES

OKLAHOMA CITY, July 10.—How would you like to eat some chocolates that had traveled 8,000 miles? Or smoke a cigarette that only reached you after a trip across the broad Atlantic, over part of France and maybe Germany, then returned to this country? Be rather stale, wouldn't it?

Yet, there are boys who have been overseas who are just getting their Christmas packages, according to the postoffice officials here. Every few days, a package or a letter is delivered to the former soldier to whom it was addressed, or, more often, returned to the sender.

Of course, if mother sent you a large piece of fruit cake as a Christmas present, and it has weathered the covetous eye of the many army mail clerks it passed, it surely will have lost none of its excellence through age. But, chances are rather slim for its ever being returned to this country, for many, many packages have gone the route of the missing when they did not reach the addressee overseas.

Owing to the many transfers that were made, or because addresses were away from their outfits in hospitals, it was impossible to keep up with them and, for this reason, hundreds of Christmas packages were never delivered—and never will be.

Some of the letters or packages that are arriving here, after traveling enough to put them in the class with Livingstone or Stanley, have enough inscriptions or addresses on them to almost cover the available space. One man here received a letter just recently that had six addresses on it.

GERMAN ASSEMBLY RATIFIES THE PEACE TREATY. EBERT SIGNS AND IT IS DISPATCHED TO VERSAILLES.

By the Associated Press

BERLIN, July 10.—President Ebert signed the bill of the German National Assembly ratifying the peace treaty at eight o'clock last night and the document was immediately dispatched to Versailles.

By the Associated Press

WEIMAR, July 9, via Coblentz.—The resolution ratifying the peace treaty was adopted by the German National Assembly today by a vote of 208 to 115.

The text of the ratification resolution, as introduced in the National Assembly, consisted of two clauses, reading as follows:

"The peace treaty between Germany and the allied and associated powers, signed on June 28, 1919, and the protocol belonging thereto, as well as the agreement relating to the occupation of the Rhineland, signed the same day, are agreed to."

"This law comes into force on the day of its promulgation."

The National Assembly by ratifying the treaty makes it possible for the allied and associated powers to raise the blockade. Official notification was sent to Germany June 29 that the blockade would be raised when the treaty was ratified. Placing this condition on the raising of the blockade was looked upon in peace conference circles as a sure plan for securing speedy ratification by Germany.

The council of five on Monday decided to lift the commercial censorship on communications with Germany simultaneously with the removal of the blockade.

When three of the principal allied powers, in addition to Germany, have ratified the treaty it becomes effective for those who have ratified it. After Germany and the three allied powers have ratified it the treaty will come into force for each power on the day when it notifies the peace conference secretariat of its ratification.

MAKES OWN COFFIN

NOBLESVILLE, Ind., July 10.—The Rev. James Hill, a retired minister, who lives on a farm in the northern part of this county, has just finished the coffin in which he will be buried. It is solid walnut and highly polished.

The timber was cut from a tree on his farm which was planted by his grandmother ninety years ago. He has placed the coffin in a local undertaking establishment and it will remain there until the times comes to use it.

More Wars Ahead If Senate Turns Down League

NEW YORK, July 10.—Fear that the senate may reject the peace treaty and the covenant of the league of nations was expressed by Samuel Gompers, president of the American Federation of Labor.

Mr. Gompers has been a strong advocate of the league of nations plan and he expressed the opinion that if the treaty is not ratified and the league plan adopted, the world will be plunged into new wars.

"In spite of my hopes and desires," said Mr. Gompers, "I have a suspicion in the back of my head that those who are working to defeat the treaty and the covenant of the league of nations will prevail. I may say right here that if they succeed and if there be any wars in the future, the bloodshed of these wars will be upon their heads."

SOME OF OUR TEXTBOOKS WRITTEN BY OKLAHOMANS

Five Oklahomans and two Oklahoma Cityans, both of them women, will profit by the action of the state textbook commission in adopting books they have written. Minnie E. Puntene, Oklahoma City, wrote "Two Years in Numbers," and "Forget-Me-Not Primer." Miss Leno Osborne, advertising manager for the Yukon Milling company, formerly a teacher in the high school, wrote a book on "Food and Clothing" which was chosen by the commission for use in the schools.

A high school civics written by Professors John Alley and F. F. Blachly of the Oklahoma university and a "Rural Song Book," by J. W. Serogues of Norman are the other books by Oklahoma authors that will be used in Oklahoma schools.

A BILL TO KEEP THE PRESIDENT AT HOME

WASHINGTON, July 10.—The president of the United States would not be permitted, during his term of office, to leave the country or to perform the duties of his office except at Washington, under a bill introduced yesterday by Representative Campbell of Kansas, chairman of the house rules committee.

Representative Campbell had prepared a lengthy address on his bill in which he sharply criticized President Wilson for going to Europe for the peace conference, but unanimous consent for its immediate delivery was refused by Representative Blanton (democrat) of Texas. Mr. Campbell hoped to deliver the speech later in the day, but in the meantime he made it public in the form of a statement.

STATE WIDE OWEN CLUB ORGANIZED

DEMOCRATS FROM ALL PARTS OF STATE MEET AT STATE CAPITAL TODAY TO BOOST.

Oklahoma City, Ok., July 10.—What probably will be the most important political meeting to be held in Oklahoma this year will take place at the capitol this morning when friends and admirers of Senator Robert L. Owen, will meet for the purpose of perfecting a permanent organization of an "Owen For President club."

The meeting will be called to order in the chamber of the house of representatives, west wing of the fourth floor of the capitol, promptly at 10 o'clock by Governor Robertson, who is president of the temporary organization, and who issued the call for the meeting today.

Many prominent democratic leaders, including Tom L. Wade, of Marlow, democratic national committeeman, and George L. Bowman, of Kingfisher, secretary of the democratic state central committee, arrived yesterday to attend the meeting.

Mrs. Katherine Van Leuven, president of the state organization of democratic women's clubs, said yesterday that she expected a large attendance of women, this prediction being based upon the number of inquiries received from women as to the time and place of the meeting.

Normal Notes

W. C. Canterbury, secretary of the Oklahoma Educational Association, arrived in the city this morning for a two days visit at the Normal. He came direct from Durant where he secured the membership of hundreds of students in the re-organized educational association. Mr. Canterbury has offices in the statehouse at Oklahoma City and is doing a great work for the educational interests of the state. He addressed the student body at East Central this morning on the work he is in and will do the same tomorrow. He expects to line up the local teachers in the state association before he leaves Ada.

The next regular picture show will be held tomorrow night. The title of the picture has not yet been learned.

The Normal campus will be the scene of local tennis tournament commencing tomorrow afternoon and ending probably Monday. Prof. E. C. Wilson is in charge of the contests and he invites all comers to take part. The contests start at 4 p. m. tomorrow. All who are interested will communicate with Mr. Wilson.

A Wonderful Revival Coming!

THE Liberty and American Theatres wish to extend to Messrs. Ham and Ramsay a hearty welcome to our city. The manager of these theatres wants to do what he can to further the interest of the revival and help make Ada a better place to live.

LET us all get into the spirit of the revival. A great religious awakening is needed, a quickening of our moral and spiritual pulse, a higher conception of our duty to God and Man. We believe all these things will come; we know they will come provided we laymen in the city do our part.

THE AMERICAN THEATRE THE LIBERTY THEATRE
BY FOSTER McSWAIN, Manager

Republican Senators Rush to Beat Democrats Endorsement of League

WASHINGTON, July 9.—The growing confidence of republican senators that they will be able to command a majority of the senate in favor of reservations on the league of nations covenant led them today to consider a new plan of action on the peace treaty which they are to receive from the president tomorrow.

The new program calls for speedy action on the treaty with final ratifications by reservations within ten days. Republicans believe they will have the votes necessary to do this.

Contest Reservations.

The resolution of ratification will be drawn so as to include reservations on all the contested clauses of the league of nations covenant including the right of America to deal with immigration, the tariff and other domestic questions, the maintenance of the Monroe doctrine and the refusal to accept the provisions of article X.

All the proposed reservations would be grouped together in a single resolution which would form part of the resolution of ratification. Acceptance of these reservations by the other powers would be made the condition upon which America's acceptance of the treaty would be effective.

Lodge Lays Plan.

The terms of this new program were laid before Senator Lodge and other republican leaders today and found considerable support. It seems likely that the plan with some modifications will be adopted.

If the republicans should adopt this policy of urging prompt action they would place democrats in the senate as well as the president in an extremely disadvantageous position. The president has repeatedly urged that the treaty should be ratified in the shortest possible time and this demand has been echoed by members of his party in the senate. If the republicans therefore should meet this challenge by bringing in a resolution, the democrats would have a hard row to hoe in combatting it, even though it contained reservations on some of the covenant provisions.

Switch Delay Blame.

Such action by the republicans would incontestably switch responsibility for delay from republicans to the democrats.

In another sense the new plan proposed by the republicans would cause some embarrassment to the president in view of his announcement that he will tour the country in support of the league. It might happen, for instance, that the republicans would get the votes together and pass the resolution for amended ratification while the president was away off in the middle west somewhere in the midst of his campaign for ratification without alteration.

Gore With G. O. P.

Senator Gore of Oklahoma today set at rest all questions as to where he stands in the matter of ratification by announcing that he will support reservations on the Monroe doctrine and other features of the covenant. In his opinion the treaty should not be ratified without these reservations nor does he believe it will be.

Senator Lodge introduced a resolution asking the president to inform the senate whether it is true that Japan and Germany had entered into a secret treaty in October, 1918, to hold Russia. The resolution also asks whether the treaty has been abrogated under clause 2, article 289, of the pending treaty with Germany or whether it is still in force and effect.

The Lodge resolution was based on a dispatch sent out by a news association from Budapest on June 20, to the effect that the soviet government had made known the existence of such a secret understanding between Germany and Ja-

pan. In the purported treaty Japan agreed to help Germany at the peace conference, to permit Germany to share in the preferential rights of Japan in China and to give Germany advantages resulting from the "most favored nation." Clauses of the existing Russo-Japanese treaty. The treaty was said to have been negotiated at Stockholm, but became inoperative by reason of the revolution in Germany.

No Worms in a Healthy Child.

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

"THE FALSE FACES" BASED ON VANCE'S POPULAR ROMANCE

Character of "The Lone Wolf" Provides Fine Role for Henry B. Walthall.

Louis Joseph Vance, who wrote "The False Faces," which recounts the further adventures of the now reformed "Lone Wolf," and which was pictured by Thomas H. Ince as a Paramount-Artcraft special feature, is one of America's most popular novelists. His stories are read with avidity by all who care for action, swift moving plot, character delineation and intricate happenings.

Among his more popular stories, aside from "The False Faces," which appeared recently as a serial in the Saturday Evening Post, may be named "The Lone Wolf," "Joan Thursday," "The Destroying Angel," "The Black Bag," etc., etc. His books are usually among the six best sellers. They have, however, more real character than most popular novels, because the writer is an artist as well as a gifted romancer.

This picture, directed by Irvin Willat, will be seen at the Liberty theater today.

The star is Henry B. Walthall, one of filmdom's most popular actors, who won fame by his splendid work in "The Birth of a Nation," the David W. Griffith masterpiece.

No Sound From Giraffe.

It is said by animal trainers that the giraffe has never been known to emit a sound of any kind. No matter what the animal may suffer when ill or injured, he remains silent. And scientists have advanced the theory that, because of the extreme length of the neck, sound is difficult or impossible for the giraffe.

Cost of War In Blood and Money Is Enormous

The price paid by the United States to win the war is told in a statistical summary just published by the War Department. The billions of money and the thousands of deaths furnish telling arguments in favor of the League of Nations, which will save both in future by preventing war.

The salient facts of America's participation in the world war are given in the subjoined table:

Total armed forces	4,800,000
Total men in army	4,000,000
Men who went overseas	2,086,000
Men who fought in France	1,390,000
Greatest number sent in one month	306,000
Greatest number returning in one month	333,000
Tons of supplies shipped to France	7,500,000
Total registered in draft	24,234,021
Total draft inductions	2,810,296
Graduates of Line Officers' Training Schools	80,468
Cost of war to April 30, 1919	\$21,850,000,000
Cost of army to April 30, 1919	\$13,330,000,000
Battles fought by U. S. troops	13
Months of participation in war	19
Days of battle	200
Duration of Meuse-Argonne battle	47
Americans in Meuse-Argonne battle	1,200,000
American casualties in Meuse-Argonne	120,000
American battle deaths of war	50,000
American wounded in war	236,000
American deaths from disease	56,991
Total deaths in the army	112,422

Americans and Yankees.

Although Canada is part of the continent of America, the name American is usually limited to citizens of the United States. A real Yankee is supposed to have been born and raised in one of the New England states, but outside of this country the name is applied indiscriminately to people of the United States.

Canada Tired of Being Dry—Beer Coming Back, Says Solicitor General

BALTIMORE, July 10.—Canada has had a year and a half of prohibition, and she has had enough of it.

Substantially this is the belief of the Hon. Hugh Guthrie, solicitor general of the Dominion of Canada, which corresponds to the position of attorney general of the United States. He talked briefly about both prohibition and the labor situation in Canada on the campus at John Hopkins university after the Canadian day exercises in front of Gilman hall.

"Our situation in the matter of prohibition is bad enough," he said, "but yours will be even worse, for you will be up against a constitutional amendment. With us in Canada the provinces decided the thing for themselves. Every province went dry on a war-time prohibition basis. Quebec has just voted back beer and light wines by an overwhelming majority. Ontario takes a vote on it next October, and there will be a big fight."

To Import Liquor.

In Canada there undoubtedly will be a law permitting the importation of liquors from England, gin from Holland and wines from France.

"The saloon has gone from Canada for good. The people do not want the public bar any more, but they do not want a law prohibiting them from drinking in their own homes and having liquor there openly. The government has solved the consumer's problem by opening stores of its own, which seem to solve also the problem of revenue lost when the manufacture of liquor is entirely prohibited, as it will be in the United States. In places these government stores will sell whisky upon a physician's prescription, and in all of them they

sell beer and light wines."

It seems beyond question, Solicitor General Guthrie said, that beer and light wines will be legally authorized in most of the provinces of Canada and the laws permitting the people to have stronger liquors in their own homes and to import it will keep within the hands of the people the personal liberty that it is claimed is lost by "bone-dry" prohibition, while at the same time the closing of the public saloon will do away with the greatest evil of liquor selling.

After the brief period of a year and a half Canadian people who stocked their cellars completely with things to drink during the spell of war-time prohibition find themselves almost entirely "out," Mr. Guthrie said. They had believed they were laying in a supply that would last for years and years, and they find it has disappeared in almost no time at all.

OKLAHOMA RAINBOW VETERANS ORGANIZE

TULSA, July 10.—A permanent organization of the veterans of the famous Rainbow division who live in Oklahoma has been formed. With headquarters at Tulsa the Oklahoma chapter of the "Rainbow Division Veterans" is rapidly receiving applications for membership from those who served in the various regiments of the fighting division.

The Oklahoma Ambulance company, which was recruited at Tulsa and which later became Ambulance Company 167 of the 42nd division, is serving as a nucleus about which the organization is being perfected. In all of the 26 states which furnished troops for this great unit which was the first to represent the national guard of the United States on European battlefields and which was counted by war critics as one of the four best divisions, similar chapters of the national organization are formed.

It is now the purpose of the state chapters to add to their membership those who were invalided home previous to the formation of the association or those who were transferred to other units through the army replacement system. The nearest relative of any deceased soldier who served with the division is eligible for honorary membership.

Applications for membership in the Oklahoma chapter should be sent to Josiah C. Chatfield, secretary and treasurer, in care of the Tulsa Democrat and Times, Tulsa, Oklahoma.

The Oklahoma chapter will hold its first state convention at Tulsa on September 5 and 6 of this year. At that time the chapter will receive those living in Oklahoma who served with the division in units other than the Ambulance company.

HOW WE LOSE MONEY.

It is commonly believed that the heir to a fortune is more than likely to lose it through business inexperience or through lack of appreciation of the value of the money which he has not earned. The man who has worked and piled up the money, on the other hand, is supposed to know how to hang on to it and generally manages to do so.

Such is not the case, says a writer in the Magazine of Wall Street. According to statistics, a great many people who have accumulated considerable wealth during their working days have lost most of it before they passed middle age.

One of the chief causes of this failure of the ordinary money earner to come out ahead in the financial game is carelessness in business methods. A prominent New York trust company has published a summary of a few very common business errors which lead to loss of funds. Among them are:

- 1—Neglecting to get receipts when bills are paid in cash.
- 2—Neglecting to keep receipts where they can be located.
- 3—Neglecting to check up items in current bills.
- 4—Inability to keep check book balanced.
- 5—Too easy optimism in starting credit accounts.

There are others, such as signing papers without knowing their contents, handling valuable papers carelessly, cutting into savings for living expenses and investing money in unknown and unreliable stocks and enterprises.

Carelessness in personal business methods is much more ruinous than one realizes when only individual items are considered. But it really is true to a large extent that small things are important and that neglected details endanger success.

NEGRO UNIONS.

Political equality on the part of the negro in the United States, as everybody knows, has never been fully realized. In theory the negro has been the political equal of the white man. In practice he has seldom exercised his nominal rights in the South, and has not fully realized them in the North. This is a situation which, right or wrong, is not likely to be altered very rapidly. There is too much prejudice to overcome on one side, and too much ignorance on the other.

It is different with industrial equality. It may be only a difference of degree; but certain it is that the negro finds it easier to make his way in industry than in politics, and easier to win tolerance and justice.

The American Federation of Labor has now recognized this situation by formally admitting colored workers to its ranks. Heretofore the color line has been drawn pretty tight by that organization. It has held back the progress of the negro race, and in all probability it has not done the A. F. of L. itself any compensating good.

Negroes constitute one-seventh of American industrial workers. The new policy is, to say the least, a triumph for democracy. It is also calculated to help the blacks along the very lines where they most need development—the learning of trades and participation in the higher living standards and educational opportunities that come with membership in the trade unions. It will help to lift them out of poverty and will make better citizens of them. And indirectly, the Federation of Labor may gain proportionately in power and prestige.

The negro will certainly contribute one asset on which the Federation today lays much stress. He is a loyal American, and can be depended on to do his part in keeping Bolshevism and Anarchism out of American industry.

Making hay while the sun shines, as a mid-summer occupation, hasn't anything on making booze while the moon shines. Internal revenue officers say illicit whisky is being made in the United States at the rate of 500,000 gallons a month.

Out of 14,000 houses in Rheims, fourteen are said to be untouched by German shells. All the reams of paper filled with German protests against the peace terms will not obscure that fact.

Peter Piper's celebrated feat was nothing compared with that of the Paris plenipotentiaries who picked the pact to pieces.

Really, the United States Senate is beginning to act up like a regular peace conference.

The State Press

Stonewall News: There are two hundred and fifty thousand words in the English language, says an exchange, and most of them were used last Sunday by a lady who discovered after coming out of church that her new hat was adorned with a tag, on which was written, "Reduced to \$2.75."

Tulsa World: Among other institutions Ada is trying to capture is the presiding elder of the Methodist church. An effort is being made to have his official residence changed from Durant to Ada, but Durant is putting up a hard fight to defeat the plans of the enterprising Ada citizens.

Pittsburg County Guardian: No wonder Hermann Mueller, the German peace delegate, signed the treaty. He is the husband of an American woman. Imagine, if you can, any ordinary peace delegate declining to do what his American wife told him to do.

Bombs and Bubbles.

Drumright Derrick: The bombing of homes of public men is a serious matter, one for prompt attention from every agency of law and order. It is imperative that the plotters be traced and shut up or deported, that future plots be nipped in the bud. But most important is that the public should not be led into panic. Fear is the food of Bolshevism. A determined, confident stand, taken by every citizen, will prove a rock against which its waves will break like bubbles.

Why is a bolshevism? Because he owns nothing, has no lasting property. Let a man own a little home, a Liberty bond, some household goods, a piano, a filled bookcase, and he is a capitalist. For him other men work, as he works for them.

Let a man give up all material things, vowing himself to the service of God and humanity, and he acquires that greatest of all possessions, a mind at rest.

Whether property be taxable on the records, or whether it be in the man's own mind and soul, matters not. The man who works by day for the service of all men and sleeps by night the sleep of the just, accumulates property. And the property owner is no bolshevism.

America is still the land of opportunity. The man who wants to rise has only to keep his mind fixed on the goal, and he cannot be kept down. America is full of men who started with nothing and could not be kept down. Not every man can accumulate a great fortune. Few men with the cares of one. But every man can earn a living for himself and family. And the man who earns a living and gets ahead, however modestly, is fundamentally opposed to bolshevism.

Bolshevism is a disease. It may make trouble. It may even for a time assume the proportions of an epidemic. But the normal condition of America is health. In any real contest, America wins. Bolshevism must be eliminated from our system. Underestimating its virulence does no good. But its best medicine is sane, confident Americanism.

The Place to Be.

Muskogee Times-Democrat: Europe is tied in a bow-knot. Debt and deficit are written across the face of things. Nowhere does the bright sunshine of opportunity glow with such a welcome warmth as in America. Half the nations of Europe would have to declare a state of bankruptcy if they had to cash in today. They couldn't survive the shock. They haven't the goods.

America is about the only nation of importance in the world today that rates as a going concern. So, entirely apart from the matter of love of homeland, America is the place to be. Not only is America the place to be, the big men of financial power. It is the place to be for the average man—the mechanic, the shipping clerk, the farmer.

Take a look at the map of Europe—Italy—Short of coal, short of raw materials, short of food, short of employment.

France—One-sixth in ruins, the balance short of raw materials, short of coal, short of employment, short of food.

England—Depending on imports for food, short of raw materials, everything unsettled, readjustment of machinery proceeding slowly, much unemployment.

Belgium—Brussels, a "show window" where food may be had at exorbitant prices; most of the balance of the country painfully desolate.

Holland—Short of coal, short of food, death and disease rates higher than ever, unemployment general, raw material supply almost zero.

Russia—A massive interrogation point where a bale of money will buy a loaf of bread if there is any bread to be bought.

Germany—Defeated, beset by all manner of wolves within and about to be loaded with an indemnity charge that will keep every German humping for the next three decades.

Austria—Gone where the woodbine twineth.

Poland, Czechoslovakia, Yugoslavia—New nations that must be built from the ground up with supplies largely furnished from without.

Bulgaria—Submerged and torn by revolution, following defeat.

Greece—In fair condition, com-

pared to the rest of Europe, but in great need of imports.

There you are. Europe is a blue and gloomy picture. This is no reflection on any of our allies. They can't help it. They got that way because they did the right and the brave thing. It is the after-suffering from the great pain of the war. But it is there.

America is the solidest, brightest, homeliest, happiest place on earth. America owes Europe a duty. It must provide the things they need in the vast desolation "over there." But in plain words that means the busiest kind of an America—and the American people love a busy place.

There is no opportunity of any kind, material, spiritual, concrete or abstract, that offers in Europe that cannot be doubled upon and trebled in America.

Of all places to be, America is the place. Opportunity to work is brightest in America. Opportunity to do the big, kindly helpful human healing of the world—that is America's. Opportunity to do what the Yankee calls "get up and get"—it is writ large on the fertile soil of the United States of Uncle Sam.

It isn't a goose that lays the golden egg between the Atlantic and the Pacific. It's a wise bird—and it is just now facing its busy season.

THE TOWN GOSSIP

By MILTON LESTER

Editor Town Gossip:—The other day, I went down the river a couple of miles and as I came to a bend in the road, which ran close to the water's edge, I heard a lot of laughing and screaming. I slowed up my horse and when I could see what was going on, I saw four girls from Ada in swimming. They were wearing boys' bathing suits. Can't you put something in the Town Gossip column about them?—G. L. B.

DEAR G. L. B.
AND I thank you.
FOR SENDING it.
I AM very much interested.
IN YOUR letter.
TO ME.
AND I hope.
THAT YOU and your horse.
SURVIVED THE shock.
AND WERE able.
TO PROCEED.
ON YOUR way.
AND I can imagine.
HOW YOU felt.
WHEN YOU saw the sight.
WHICH YOU describe.
AND THE doctors say.
THAT SUDDEN shocks.
ARE BAD for the heart.
SO I would suggest.
THAT YOU keep away.
FROM SECLUDED spots.
ALONG THE river.
BECAUSE I don't like to write.
OBITUARY NOTICES.
AND I'VE just been.

TO SEE Dr. Deen.
AND HAD him examine.
MY HEART.
AND HE says that it is.
IN FIRST-class shape.
AND NOT very long ago.
I BOUGHT myself.
A ROW boat.
AND I like to go.
OUT ROWING.
IN THE afternoon.
AND I wish.
THAT YOU'D come in.
AND SEE me the next time.
YOU COME to town.
BECAUSE I would like.
TO GET some information.
FROM YOU about something.
AND PLEASE.
TRY TO come soon.
BECAUSE IT won't be long.
BEFORE IT will be.
TOO COLD.
TO GO in swimming.
I THANK you.

Way to Ice Plant will not be barred

For the accommodation of the management of the ice plant and for the convenience of the patrons who may find it necessary to go to the plant in the evening, the street will be roped diagonally at Ninth and Rennie instead of straight across. This will make it possible to have direct access to and from the plant by going on Constant from Main to Ninth, thence to Rennie and the plant. This arrangement is made after conference with Mr. Marshall, the manager of the plant, who desires to co-operate with the spirit of Ada and the Ham-Ramsay campaign.

R. A. HERNDON, Chairman,
Tabernacle Committee.

The street will be roped after 8:15 each evening at Ninth and Broadway, Tenth and Rennie, and diagonally at Ninth and Rennie, leaving direct access to the ice plant from Constant Street.

We Will Credit You for a Home

New Firm to Start Big Dry Cleaning Works In Ada

L. E. Smathers and F. J. Schreiber, both well known business men of this city, have formed a partnership and will, at an early date, establish in the city a modern and up-to-date dry cleaning plant equal to any in the state.

The institution will be known as the "Ada Cleaning and Dye Works," and will be housed in the Rives building on West Main street, the same being one of the eleven new brick structures soon to be built on Main just west of the Oklahoma State bank.

The new firm has purchased a brand new, five thousand dollar equipment which will be installed just as soon as it arrives. This can be done for the reason that the underground tank system does not have to wait on the construction of the building, and it is contemplated to erect temporary quarters at the rear and proceed to business just as soon as the equipment is installed.

Mr. Smathers has been in the business here for the last eight or nine months, the business now being located in the Gay-Kirby electric building.

Mr. Smathers is an experienced man, and with the elaborate equipment which the new firm has purchased we are assured of one of the best equipped cleaning and dyeing establishments in the southwest.

Barnett were shopping in Stratford Saturday.

Misses May Flowers and Clemmie Light spent the day with Miss Jessie Hooper Sunday.

Rev. J. G. Bond is on the sick list this week. We hope he is better by our next writing.

Misses Ima and Amy Moore and Miss Goldie Gregory and J. Q. Moore and daughter Norene motored to Stratford Saturday afternoon.

Miss Bertha Wood and Wilbur Stone visited Janie Lou and Cleo Norman of Maxwell Sunday afternoon.

Quite a few of the Maxwell young folks attended preaching Sunday night at the chapel. We are always glad to have visitors; come again.

Sam Haskins of Ada, after spending a few days with L. D. Haskins, returned to his home Sunday.

Protracted meeting begins next Friday night, July 11th. Everybody cordially invited to attend all services.

Come on Huckleberry Fin; we enjoy your writings. TINY TIM.

Washington's Advisers.

When Washington formed his cabinet it had but four members, the interior department being unknown, the war and navy departments being under one head, and the postmaster general being subordinate to the treasury. Nevertheless these four positions, he gave two to Virginians, Secretary of State Jefferson and Attorney General Randolph; one to New York, Alexander Hamilton, and one to Massachusetts, Henry Knox.

Byrd-Davis.

The marriage of Miss Camilla Davis of this city to Mr. Roy Byrd of Oklahoma City at 3 o'clock Wednesday afternoon, at the First Baptist church, was a culmination of a courtship which began when they were mere children while attending school and making mud pies together.

The wedding was a very quiet affair, those in attendance being the bride's father, who resides near Byrd's Mill, two brothers, Mr. and Mrs. M. C. Hooks, uncle and aunt of the bride, Dr. and Mrs. Akers, Miss Dorothy Hooks and other members of the Hooks family. The ring ceremony was used.

The bride wore a gray traveling suit with pink accessories, and a corsage bouquet of sweet peas. The groom wore the civilian suit.

Mr. Byrd is only two weeks out of service, having spent over a year in France. At the time Mr. Byrd left for overseas, Miss Davis was doing

war work in Virginia and accompanied him as far as New York.

Miss Davis is a very ambitious and industrious young lady and the good wishes of her many friends and relatives follow her to their new home in Muskogee where Mr. Byrd enters upon a very promising career, being connected with the Demming Investment Company of that place.

The young couple left yesterday afternoon on the 4 o'clock Katy for Oklahoma City where they will spend a month or more before taking up their permanent abode in Muskogee.

Goldsmith's Masterpiece.

Goethe, at the time of publication, said that "The Vicar of Wakefield" was one of the best novels ever written, and called it a "prose-idyll." It is certainly the musical prose of a true poet.—Julian Hill.

The Covenanter Letters

Being a Discussion of the Covenant of the League of Nations by Eminent Men.

ARTICLES V, VI and VII.

Voting Rules.

Procedure and the appointment of committees in the Assembly and the Council are to be decided by a majority vote, almost all other matters require unanimity. The functions of these bodies being mainly discussion, the requirement of a unanimous vote on questions of procedure would enable one member to prevent any subject from being debated; and if it were required for the appointment of committees one member could prevent gathering the information needed for intelligent discussion.

The object of demanding unanimity for other matters was really to still the alarm of people who did not understand that the organs of the League are given no substantial power to direct the conduct of the members. But the provision is by no means inconsistent with the principle on which the League is based—that of automatic action by the members, specifically set forth in the Covenant itself, and beyond this conferences with a view to voluntary concerted action by all the members. For the last purpose a unanimous vote is not inappropriate.

The Automatic Principle.

It may be well to explain here more precisely what is meant by automatic action on the part of a member of the League. It denotes action that is automatic so far as the League or its organs are concerned, not in regard to the constitutional branches of its own government. Under Article XVI, for example, if one nation resorts to war against another in disregard of its covenants the other members of the League agree immediately to subject it to the severance of all trade and financial relations, and to prohibit an intercourse between their citizens and its citizens. This is automatic in the sense that it is a direct and immediate obligation, wholly independent of any action by any organ of the League. It is not automatic in the sense that the severance of relations takes place automatically without any action by the governments of the several members of the League. Nor does it determine what branch of a national government has power to put it into effect. That depends upon the constitution of the nation. With us it would require legislation, and therefore action by congress; but

congress is under a moral obligation, like that imposed by every treaty which pledges the good faith of the nation, to enact the legislation required.

Permanent Secretariat.

The League will obviously need a considerable body of men to carry on a voluminous correspondence among the members, to record the proceedings of the different organs, to collect such information as they may require, and to assist the various committees and standing commissions. In fact the convenience of the representatives, and the ease of working the organization will be greatly promoted by the efficiency of such a secretariat and its chief. This is especially true because in popular governments—and no others are expected to be members of the League—the men who hold the high offices of state change frequently, and hence the representatives in the Council and Assembly are not likely to remain long enough to be thoroughly familiar with the details of previous transactions, but must depend for much information upon the secretariat.

In order, therefore, to render efficient service the Secretary General and his subordinates should be permanent, fully conversant with the history and condition of international relations, but not themselves political persons. Their duty is to serve the League, not to direct it; and in view of the large influence that any permanent expert, with the details of a matter at his fingers' ends, can exert over a changing body of political superiors it is of the utmost importance that the secretariat should be as free from bias and from political motives as possible; so that their object may be the success of the League as an institution, not the special interest of any particular member. If rightly administered the secretariat may well become one of the most important and beneficial organs of the League.

Geneva Ideal Seat.

Article VII needs little comment. It confers upon the delegates to the Council and Assembly, to their commissions, to the secretaries and to the buildings they occupy, the freedom from interference by local laws and local officials conferred by universal custom upon ambassadors and embassies in foreign lands. In order to ensure for the League complete independence from influ-

ence and pressure by any great nation, and still more from any suspicion of such influence, it was wise to place the seat of the League in a small and traditionally neutral country. No better place could have been selected than Geneva.

Wheat Receipts Show Life.

NEW YORK, July 10. — Wheat receipts from farms for the week June 27 amounted to 2,579,000 bushels, according to a statement issued yesterday by the United

States grain corporation, covering the wheat and wheat flour movement throughout the United States. This was an increase of 259,000 bushels over the preceding week, and a decrease of 1,030,000 from the same week a year ago.

PRINCE ALBERT

the national joy smoke

Copyright 1919

Tobacco Co.

NEVER was such right-handed-twofisted smokejoy as you puff out of a jimmy pipe packed with Prince Albert! That's because P. A. has the quality!

You can't fool your taste apparatus any more than you can get five aces out of a family deck! So, when you hit Prince Albert, coming and going, and get up half an hour earlier just to start stoking your pipe or rolling cigarettes, you know you've got the big prize on the end of your line!

Prince Albert's quality alone puts it in a class of its own, but when you figure that P. A. is made by our exclusive patented process that cuts out bite and parch—well—you feel like getting a flock of dictionaries to find enough words to express your happy days sentiments!

Toppy red bags, tidy red tins, handsome pound and half-pound tin humidors—and that classy, practical pound crystal glass humidor with sponge moistener top that keeps the tobacco in such perfect condition.

Will Be 50 Cents a Month

Beginning August 1, 1919, the subscription price of
The Ada Evening News will be

15c a week by carrier or mail—50c a month by carrier or mail, paid in advance—\$5 a year by carrier or mail, paid in advance

This raise in the subscription price is necessary in order that we may meet the additional cost of issuing a larger and more inclusive newspaper. The readers now get as much news as the readers of daily papers in towns of 30,000 and 40,000 population. It costs a great deal more to produce a paper of this size and quality, and we believe the citizens of this town are willing to pay for such a newspaper.

Increased Cost of Labor

All of us thought prices would go down, once the war had stopped. Prices, however, have gone higher, necessitating higher wages, which mean a higher producing cost of newspapers. The News pays good wages, because it believes in getting good men and doing good work.

No Choice in the Matter

Since the beginning of the war, almost every daily newspaper in the United States has raised the subscription price. We have kept the price of the News the same as it was years ago, for the reason that we did not want to appear to be profiteering. The time has come when we have no choice. We must raise the price. But before raising the price, we have endeavored to make the paper better as we have made it larger.

A glance at the prices below will show what other newspapers in the same class with the Ada Evening News are getting for subscriptions—

Name of Paper—	Month	Year
The Ardmoreite	.60	\$6.00
The Ponca City News	.60	\$5.00
Miami Daily News	.45	\$5.00
McAlester News-Capital	.60	\$5.00
Okmulgee Daily Democrat	.65	\$7.50

A comparison of the subscription rates of the Ada Evening News with the rates of other newspapers shows that the News rates are still low.

During the remainder of July, subscribers will be permitted to pay up for as long a time as they desire at the old rates of 40 cents a month, or \$4.00 a year. This is an opportunity for you to save money.

DON'T PAY CARRIER BOYS.
A few News subscribers persist in paying the carrier boys for their subscriptions. That is not the way we handle the business. We have a circulation manager and collector who will call on you for your subscription money. If you pay the boys you do so at your own risk, as it will simply mean that you will have to pay twice if you continue to get the paper. The boys are paid by the week for this work and the collecting is not part of their job. Remember, pay nobody but our authorized collectors.

OLD NEWSPAPERS.

Are a most convenient thing to have around the house. They are good for wrapping bundles, starting fires and a hundred and one other things. The News gets hundreds of exchanges, and after these are examined here in the office they are tied into bundles of about a hundred and sold for five cents the bundle. Many times you will find a month's good reading in one of these bundles. Come in and get one.

DEAR CUSTOMERS:

In order to give our patrons the service they require, each route wagon in the residential district must cover his trade in about five hours, or three hundred minutes—if he can make a delivery every two minutes, he can serve one hundred fifty customers, but he cannot possibly do this if the customers compel him to wait for change or for coupons, or for any other cause.

Won't you help him and us to give you and all of our customers good service by using coupons, and having them ready when ice is delivered so that the driver will not be delayed?

CURED HIS WIFE OF AUTO AMBITIONS

Wife wanted an automobile. Husband felt that he couldn't afford it. This was the situation that many a man has found himself in since the automobile fever struck the country. It remained for one Ada man to cure his wife of the disease, one of the few cases of recovery on record. Wife had begged and pleaded, used tears and smiles and every form of persuasion. Husband argued to the best of his ability, though he did like the mind picture he had of himself at the wheel guiding the car, with his family out for an evening, while the neighbors looked on and admired. Finally, however, his powers of resistance were so weakened that he gave a weak "Yes" of assent, and automobile agents began to call at the little home. The decision at last rested upon a \$1,100 car.

One day while husband was on his way downtown he had an idea. He called at the bank and asked the teller for \$1,100 in currency—\$1, \$2, \$5 bills with a sprinkling of \$10 to give a look of weight and substance to the whole. He wrapped the money in a newspaper, walked home quickly, called his wife into the living room, opened the bundle and spread the money out on the table.

"Now, that's what we are going to have to spend if we buy an automobile," he announced and waited for his wife's reply.

She looked at the pile of money with wide-open eyes as though she had never realized before how much \$1,100 was. She saw shoes for the baby, the mortgage paid on the house, the vacuum cleaner she had wanted, aid for her brother's widow and her family who had been left without support—and any number of things that could be done with that big pile of bills.

"I have decided that an automobile is extravagant," she said after a pause, but not without a small sign of regret and of renunciation.

40 YEARS ON THE JOB

I put 40 years in the study and practice of medicine and pharmacy before I was fortunate enough to secure and perfect the wonderful prescription for "Number 40 For the Blood" and at this late date in life I would not offer suffering humanity a medicine that I did not believe better than any offered by any doctor or druggist. I have observed the effect of "Number 40" in thousands of cases and can safely recommend it in all diseases of the blood such as specific blood poisoning, in chronic rheumatism, catarrh, constipation, stomach and liver diseases, to cause sores and ulcers to heal and disperse nodes, tumors and scrofulous swellings. "THE GREAT ROMANCE" A LOCKWOOD PLAY

A Thrilling Romance of Love and Adventure to be Shown at the American Theater.

"The Great Romance," the Screen Classics, Inc. production, starring Harold Lockwood, is to be shown at the American theater today and will present to the public an unusual theme enacted in this favorite of the screen's most virile and winning manner.

The story is laid in a mythical principal to which a young American falls heir. With his free and democratic upbringing the ideal of ruling by inheritance does not appeal to him—the pomp and glory of being a monarch does not seem as attractive as being just a free, red-blooded young American in the land he loves. He about decides to decline the throne with thanks when he finds that the girl he loves is involved in a deep intrigue in this very country—she has been taken there by a scheming mother who hopes to marry her to an impoverished member of the royal family. Determining to rescue her he sets off for this remote corner of Europe and encounters many strange and dramatic adventures—and experiences "the great romance." Brilliantly told, the story is magnificently acted and the production is one which will hold an audience spell-bound. The scenes are very beautiful and many elaborate sets show the grandeur of the Royal Palace.

Supporting Mr. Lockwood are such experienced players as Ruby de Remer, Frank Currier, Joseph Granby, Morgan Thorpe, Louis Stern, J. P. Laffey, Franklin Hanna, Clare Grenville and Helen Lindroth. The production was made by Henry Otto and was written by Finis Fox.

Books That Profit.

There are hundreds of books, each one of which, if read, really assimilated by the person to whom it happens to appeal, will enable that person quite unconsciously to furnish himself with ammunition which he will find of use in the battle of life.—Roosevelt.

WELCOME TO ADA

THE GREAT REVIVALISTS, MESSRS. HAM AND
RAMSAY

We take delight in welcoming to Ada Rev. Ham and his able assistant, Mr. Ramsay. We know you will be delighted with the town and find the spirit ready for a mighty upheaval along religious lines. Denominationalism has been laid aside, and the various churches of the city are co-operating to bring about a renaissance of the Old Time Religion, that is still good enough for you and me.

Let Ada and Pontotoc County rally to the cause of Christianity.

An Old Fashioned Drug Store

In these days when the drug store is so modernized and different from the old fashioned kind, many stores over the country fail to recognize the importance of the PRESCRIPTION DEPARTMENT.

Although we carry everything the modern drug store carries, and do a big business at the SODA FOUNTAIN and sell lots of VICTROLAS on easy payments, yet we are still OLD FASHIONED enough to consider the Prescription Department the most important part of our business.

EBERT SIGNS PEACE TREATY

(Continued from Page One.)

upon trade with Germany upon the assumption that the allied and associated powers will not wait to raise the blockade until the completion of ratification, as provided for at the end of the treaty with Germany, but that it is to be raised immediately upon receipt of information that the treaty of peace has been ratified by Germany.

Promulgation of the resolution ratifying the treaty was dependent upon the signing of the resolution by President Ebert.

The German National Assembly is the first elective body in any country whose representatives signed the treaty to adopt a ratifying resolution. The treaty has been laid before the British, French and Belgian parliaments and will be before the senate of the United States tomorrow by President Wilson.

By the Associated Press

WASHINGTON, July 10.—Official notification of the ratification of the peace treaty by the German National Assembly was given the peace conference this morning.

By the Associated Press

WASHINGTON, July 10.—President Wilson, it is understood today, takes the position that a two-thirds majority will be required to adopt any senate reservations in ratifying the peace treaty. The impression of opposition leaders in the senate has been that only a simple majority was necessary.

By the Associated Press

WASHINGTON, July 10.—President Wilson, conferring with newspaper men at the White House today, indicated that he was gratified at the prompt German ratification of the treaty. The president indicated that Germany must have renewed her trade relations if she is to be enabled to keep reparations demand. He made it clear that he thinks troops should be maintained in Germany until the Germans have complied with all of the treaty's military terms. The Germans have from one to four months in which to deliver all material except that sufficient for a reduced German army, and the president believes that Americans should stay on the Rhine until the material is delivered. Discussing the Versailles negotiations, President Wilson let it be known that the league of nations covenant should be included in every treaty negotiated at Versailles, including the treaty with Bulgaria.

MRS. MARY PEBSWORTH HELD FOR GRAND LARCENY

The case of Mrs. Mary Pebsworth, wife of Lee Pebsworth, charged with burglary, was heard in preliminary trial before Justice H. J. Brown this morning.

The case grew out of the burglary of the Stonewall Trading Company's store in Stonewall, May 9. The store was broken into and about \$600 worth of dress goods, shoes and other apparel taken. Mrs. Pebsworth's house, three miles south of Tupelo, was searched last week and several articles found, which caused the officers to arrest her on the burglary charge.

The first witness to testify at the trial of Mrs. Pebsworth was City Marshall P. G. Nebhut of Stonewall. Mr. Nebhut stated that he went with Sheriff Duncan, Deputy Chandler and the constable of Tupelo to Mrs. Pebsworth's home where they searched her premises. There they found a silk skirt, a silk petticoat and a remnant of silk dress goods about five yards in length. Mrs. Pebsworth did not satisfy the officers in her explanation of where the goods came from and they took her in charge. The goods were brought to the trading company store where they were identified as part of the company's stock, and they were held as evidence. Other goods were also found, but they were not identified.

After Mr. Nebhut, Miss Jim McKinley testified. She stated that she is a clerk for the trading company and identified the two skirts and the white goods as part of their stock. She was followed by the manager of the store, Mr. D. G. Johnson, who offered substantially the same testimony as that of Miss McKinley. Mrs. Joe Beck of Stonewall was then placed on the stand and testified that the goods looked like those carried in stock by the Stonewall company, where she had been employed.

Mr. E. Ginsberg of Tupelo was then called to the stand, to tell of his dry goods store being robbed in the same manner as the store at Stonewall, and it was intended that he should identify the remainder of the goods taken from Mrs. Pebsworth's house as goods taken from his store, when it was robbed, but the court would not permit this evidence to be introduced as it was considered irrelevant, incompetent and immaterial.

After the testimony of Mr. Ginsberg the state rested its case and Judge C. M. Threadgill of Coakale, who represented Mrs. Pebsworth, stated that the prosecution had made out no case of burglary against the defendant and he wanted to end the case without introducing any witnesses. This the court would not grant, and Judge Threadgill placed Mrs. Pebsworth on the stand.

Mrs. Pebsworth testified that she was the mother of two children, the youngest of which was a small baby, with her then in court. She also had a step-daughter, 13 years old. She claimed that she had received the skirts named in the indictment from her husband, who brought them in April from Wichita Falls, Texas. She also stated that the white goods came from a New York mail order concern, and that she had made a dress from three yards of it for her baby. She stated that she got this cloth last October.

After Mrs. Pebsworth testified her step-daughter, Dorothy Pebsworth, was called. She stated that the skirts were brought by Mr. Pebsworth in April and that he claimed to have gotten them at Wichita Falls, Texas. She stated that he also brought the white piece of goods and that her mother had never made any dress from the cloth for the baby. William Otis Pipkin, who is employed on the farm by Mrs. Pebsworth, stated that Mr. Pebsworth brought the cloth from Wichita Falls, and that he brought it to his home on May 10th. This was the last time he had seen Mr. Pebsworth at home. He could give no reason for remembering May 10 as the date. Mr. Pebsworth was at home. The store was broken into May 9. This was the last material witness who testified. Mrs. Pebsworth sat through the trial with seeming unconcern over its outcome, and seemed to be accustomed to the grueling cross-examination through which she passed. She stoutly denied having burglarized the store or of receiving the goods after the store was robbed. She held her baby in her arms while the trial was in progress.

When the defense rested Mr. Wad-

lington stated that he would not undertake to have Mrs. Pebsworth held for burglary, but that she could be held for grand larceny, since she had stolen goods in her possession for which she could give no truthful explanation. Judge Brown held to this view and placed her bond at \$500.

Court News

Miss Rose King, deputy in the county clerk's office, is off on sick leave today.

The 1919-20 estimate of the needs of the city of Ada is being worked on today and it will be ready in a few days.

Mary Sparks, of Red House fame, was in police court again today, officer Gocher arresting her for walking the streets with a man yesterday afternoon.

The number of prisoners in the county jail was reduced almost to nil this morning. Only three men were confined within its walls. It looks like the county gets better all the while.

Yesterday was by far the hottest day of this year. Mrs. Gladys Maddox, deputy county treasurer, says a thermometer was placed in the sun at the cement plant yesterday afternoon and it soon registered 142, which is going some.

The case of the State against Luther Correll of Stonewall on a charge of attempted rape was set for hearing today but the accused waived preliminary hearing and the case will go to the District Court. He is out on bond. Defendant was represented by Crawford, King & Crawford.

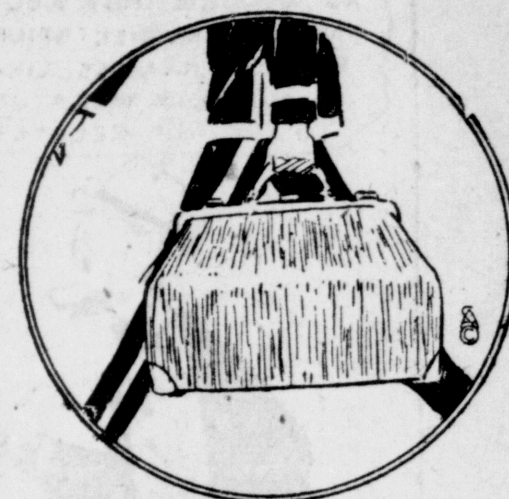

Clerk Milton Garner reports the best band practice of the season at his office last night. They have changed the practice night from Thursday to Wednesday, and will meet again next Wednesday night. The band men expect to be giving a public concert regularly each week in the near future. It will likely be staged at the bandstand on East Twelfth.

Johnny Johnson, colored, was fined fifty dollars and costs in the police court yesterday on a charge of assault and battery. He was charged with making an attack on his wife. As he had no money with which to pay his fine, he was sent on the streets to work out the sentence. He refused to do any work and the mayor ordered the miscreant to the city lock-up and placed on a diet of bread and water until he was broken in spirit to the point of obeying orders when given by the officers.

The mayor's office has been presented with the flag sent out by the government for the success of the Victory Loan drive. R. W. Simpson, county chairman of the last drive, took the flag to the mayor's office this morning with the statement that he thought the mayor's office would be an appropriate place for the flag to hang. Similar flags were sent to the towns of Allen, Stonewall, Francis, Fitzhugh and Roff. The flag is 24 by 48 inches, made of red and white cloth, and in the center has a large black V. It is very pretty and makes an inspiring sight in the office of the city's chief executive.
